Report of the Multiplier Event for the Feel Good Project in Austria

Meeting Venue: Arbeiterkammer Vöcklabruck,

Date: 20th of May 2019

Program:

1. Welcome:

First, we had welcomed the participants; the invitation was made by Ute Schulz and Hilde Lugstein, a colleague in the BFIOOE. The participants work in very different health care organisations.

2. Presentation of the EU Project FeelGood

We made an overall presentation of the project, its aims and goals. We informed the participants as well about the rules of running an EU project.

3. Information about the results of the Intellectual Outputs IO1 an IO2

We gave information about the main outcome of the IO1 and IO2 research work. We also informed about the IO3 basic structure that we had fixed already and the outlook about the curriculum and the training that we will develop. We asked as well if they eventually take part in the trainings and in the pilot testing. We got very good responses on that.

4. Video

We showed the first video and discussed the content of it. The video was assessed as very easy to be understood; all the participants liked the making of.

5. Discussion and feedback

The event got a good feedback, all participants found the information that was given very useful.
